Captain’s Report

At dusk on 25th Sun’s Height, Ordinators of the Watch were notified by shipmaster Ano Andaram of lights and unfamiliar voices in the wilds north of Vivec. Upon inspection, Ordinators discovered smugglers camped beneath an emperor parasol at the shore opposite the city walls.

The smugglers attempted flight but were cut off by additional Ordinators stationed at escape routes. Smugglers suffered minor to moderate injuries before surrendering.

At the camp, Ordinators discovered contraband and weapons (detailed in report ledger), as well as a small rowboat overturned in nearby bushes.

On initial search, the Khajiit leader was found to be in possession of an amulet linked to the Renrijra Maor. As an enemy of ALMSIVI, she shall be transferred to the Ministry of Truth for special interrogation.

After further inspection, the second Khajiit was identified as a wanted brigand and enemy of the Mane. The other two do not match existing records, and as such all three shall be held in standard confinement until sentencing.

Praise be ALMSIVI.
